TROPHY GAMES

UI DESIGNER

Join the Team Behind the Games You Love

At Trophy Games, we're all about crafting experiences that connect and excite players — and we want your creative eye to help make that happen.

ABOUT THE JOB:

We're on the lookout for a talented UI Designer to help shape the look and feel of our games. You'll turn ideas into sleek, functional, and visually engaging interfaces that keep players coming back for more.

CORE RESPONSIBILITIES:

- Building a design system that looks awesome and fits the vibe of our games.
- Creating icons, UI components, and other visual elements that players actually interact with.
- Documenting design choices and maintaining clear guidelines to keep everyone on the same page.
- Iterating on designs based on feedback (we love testing and improving).
- Making sure all assets are dev-ready and easy to integrate.

MAIN COMPETENCES:

- Around 3+ years of UI design experience.
- A strong portfolio, ideally showing mobile app or game UI work.
- Advanced Figma skills: auto-layouts, variants, design systems.
- Collaborative spirit: you love working with devs to bring designs to life.
- Experience creating and maintaining consistent design systems.
- Comfortable working independently and taking initiative.
- Flexible, proactive, and detail-oriented.

NICE-TO-HAVES:

- A background in gaming or a love for games.
- Familiarity with usability principles and player experience best practices.
- Some UX know-how to enhance usability and flow.
